

LEO KESHO ORGANIZATION ANNUAL REPORT 2023

Leo Kesho Organization Annual Report is our principal disclosure of the organization's activities, events, and the impact of our programs. It serves as a comprehensive record of our accomplishments and an overview of the operating environment for our stakeholders, including donors, partners, the team, and beneficiaries. It covers the period from 01 January 2023 to 31 December 2023 and highlights key moments and events we participated in throughout the year.

About us

Leo Kesho is two Swahili words; "Leo" means Today and "Kesho " means Tomorrow. We believe that the input(s) of today produces the results of tomorrow hence, empowering the communities to act responsibly. The organization was founded by a group of young people who are passionate about sustainable development. Leo Kesho Organization was registered in January 2022 with the registration number 00NGO/R/2797. The organization operates in all regions of the United Republic of Tanzania. The head office is in Mbeya City.

OUR MISSION

To empower the current communities for the empowered next generation.

OUR VISION

We envision a future where empowered communities act as springboards, launching the next generation toward a brighter and more empowered world.

OUR VALUES

Projects

Tufanye Sasa (Songwe, Dar es Sallam)

Objectives

- Promote the reduction of plastic usage within the community to foster a more sustainable and environmentally friendly future
- Ensure the distribution of essential items to student beneficiaries, supporting their academic and personal well-being.
- Empower students with digital literacy education to enhance their technological skills and prepare them for the digital age.

Empowering Students and Youth through Career Guidance, Digital Literacy, and 21st-Century Skills Training: Empowering students and youth through career guidance and ensuring they are equipped with essential 21st-century skills, including digital literacy, is crucial for their future success. The image above captures students from various secondary schools participating in career guidance and digital literacy training sessions in Dar es Salaam. Also, the facilitator, Dr. Alice Temu, Chief Executive Officer of Top Education Consulting (in a white T-shirt), led a session with the students at Kijitonyama-Kinondoni. These trainings were conducted in collaboration between the Leo Kesho Organization and its partner, Lifetime Social Organization.

Tufanye kwa Wote (Mbeya, Dar es Sallam)

Objectives

- Promote the reduction of plastic usage within the community to foster a more sustainable and environmentally friendly future.
- Encourage the production and use of eco-friendly packaging to promote sustainable practices and reduce environmental impact.
- Raise awareness and educate the community on climate change to foster informed actions and sustainable practices.

In October 2023, the Leo Kesho Organization took part in a tree-planting initiative around the Daniel Chongolo Secondary School compound at Kinondoni Dar es Salaam City. This effort reflects the organization's ongoing commitment to environmental conservation and community involvement.

Promoting Environmental Conservation and Climate Change Education within the Community: Engaging communities in environmental conservation and climate change education is crucial for fostering sustainable development and building resilience against environmental challenges. The Leo Kesho Organization plays a vital role in raising awareness and empowering individuals with the knowledge needed to collectively work towards a healthier planet and a more informed, proactive society.

Impacts

Schools Reached	4
Community Centre	1
Trees Planted	70
Education	Beneficiaries: 137
Empowerment of Communities	Beneficiaries: 74
Environment and Climate Action	Beneficiaries: 567

Testimonials

"Thank you to the Leo Kesho organization for organizing this training session, which provided us, the small-scale nursery tree growers, with an invaluable opportunity to engage with government officials from the City Forest Office and the Environmental Unit. We have gained significant insights, and they have addressed all our concerns."
